

## Moonlight (ROSA-X, M.Schirmer)

I got the moon  
got the moonlight  
coming soon it's a good night ever last to long and ever  
last to long

I get the moon  
get the moonlight  
like a noon like a noon light ever last to long and ever  
last to long must be something wrong and must be  
something wrong

**little dream  
and I will not wake up  
morning's beam.a little too late**

ever last to long and ever last to long  
under the moon  
moon light up the tune up the tune right never hold me  
down and never hold me down never hold me down  
and never hold me down **Ref**  
never hold me down and never hold me down  
The Thing that may not drown. The Thing that may not  
drown.

### **Zwischenteil Ref**

never hold me down and never hold me down  
The Thing that may not drown. The Thing that may not  
drown.
